CORPORATE SOCIAL RESPONSIBILITY

OUR COMMITMENTS

Environmental Commitments

100% made in France, 100% recyclable and highly durable. Our products are eco-designed and our teams are made aware of waste management practices to ensure that we reach this objective.

Social Commitments

We promote diversity and fight all forms of discrimination. In addition, we allocate a percentage of our profits to a mutual fund **for the well-being of our employees.**

Local Commitments

We actively participate in the vitality of the local area by establishing partnerships with local ecosystems to **promote the circular economy** and strengthen our contribution to our region's reputation.

Our purpose

To design and certify sustainable products of very high environmental quality and 100% recyclable, all over the world. To promote our wealth of human and local resources by asserting our position as a local player in the circular economy, committed and socially responsible.

Dyna Shock System is ISO 9001 - 2015 certified
